Dear Cattlemen:

On behalf of Reich Angus, we would like to invite you to our 13th Annual Bull Sale and Open House. The last year has been outstanding for the cattle industry of North Dakota. Excellent gross and hay production along with record high prices for feeder cattle and a mild winter are making a lot of ranchers very optimistic. We cannot predict the weather, but the cattle markets are looking to stay very strong for the next few years.

The bulls in this year's offering are again looking very good. We are proud to feature three new AI Sire groups that were bred and raised on our operation. These bulls come from cow families that have excelled in our program and we are excited to further these genetics in our herd.

The emphasis of our breeding program is in producing females that will have a moderate, mature frame size with the capacity and mothering ability to excel in a tough northern plains environment. A cow on our operation needs to be able to hold her condition while consistently weaning off a heavy calf without the help of a creep-feeder. We place high priority on fertility, udder quality, natural thickness, good disposition and sound structure. These cattle are bred to be problem-free for our commercial customers as well as our own operation. Through intense culling pressure, an extensive AI program and performance testing, our herd continues to improve every year.

The bulls are being developed in a large area on a high ruffage ration to ensure long-term soundness. We believe yearling bulls need to be treated like athletes in order for them to stay sound and have the fertility to ensure breeding season success. Our bulls are guaranteed to be breeders and we stand behind them 100%. If you have any problems with one of our bulls, let us know about it so we can work out a solution. We know our success is based on complete customer satisfaction.

We encourage you to visit the ranch and inspect the bulls prior to the sale. If you have any questions, please don't hesitate to give us a call.

Sincerely,
The Reichs

Heifer Bulls: The bulls we recommend to use on heifers are noted next to the pedigrees. This is based on EPDs, personal judgment, birth weight, observation at birth and past experience of the cow or bull. This does not mean you will not have to pull any calves, but hopefully most will come unassisted. As cattle producers, you know what works in your program and may be able to use bulls other than those recommended.
